PROFESSIONAL SUMMARY

BS IT student at Bahria University Karachi (graduating 2027) with a CGPA of 3.22, currently interning as a Frontend Developer at HNH Soft Tech Solutions. Experienced in building web and mobile applications using the MERN stack, Python/Django, and Android (Kotlin/Jetpack Compose). Familiar with introductory machine learning and cybersecurity through academic projects. Eager to contribute and grow through real-world software development experience.

EDUCATION

BS Information Technology — Bahria University Karachi 2023 – 2027
CGPA: 3.22

Intermediate (Pre-Engineering) — Bahria College Karsaz, Karachi 2020 – 2022

EXPERIENCE

Frontend Developer Intern May 2026 – Present
HNH Soft Tech Solutions

- Developing responsive websites using HTML, CSS, Tailwind CSS, and component-based UI with JSX and TSX.
- Building and maintaining frontend interfaces with React and handling local server setup using Express.js.
- Collaborating on real client projects, translating designs into clean and functional web pages.

PROJECTS

Cybersecurity Threat Simulator — Python, Scikit-learn, Random Forest, Flask
Final Year Project — Bahria University | 2026 (In Progress)

- Building an AI-powered platform to simulate cyberattacks and detect them using a Random Forest classifier.
- FYP proposal approved with a score of 8.1/10; implementing attack modules and a detection dashboard.

Skillzo — Freelance Marketplace — React, Node.js, Express.js, MongoDB, JWT
github.com/Raza-Hammad

- Built a Fiverr-like platform with buyer/seller roles, JWT authentication, and real-time messaging.

FoodLink — Android App — Kotlin, Jetpack Compose, Room DB, MVVM
github.com/Raza-Hammad

- Android apps connect food donors, receivers, and NGOs with three user roles and donation management.

Cyber Log Analyzer — Python, Flask, Scikit-learn, Pandas
github.com/Raza-Hammad

- Web tool that analyses login logs and flags anomalies using ML, with a risk-scoring admin dashboard.

Freelance Project System — Node.js, MSSQL, HTML, CSS, Bootstrap
github.com/Raza-Hammad

- Job-posting platform where clients post tasks and freelancers apply; 3NF normalized schema.

CERTIFICATIONS

Pro Python Course (Aptech, May 2024) — **Introduction to Modern AI** (Cisco Networking Academy, Sep 2025)
— **English Language Proficiency Course**

ACHIEVEMENTS & ACTIVITIES

- Runner-up — Code in the Dark, Techathon at Bahria University (May 2026)
- Federal Board Cricket Tournament Champion — Team Captain (2020)
- 3rd Place — Swimming Competition
- Developer — Bahria University Development Society (BUDS)

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, Kotlin, C/C++, SQL

Frontend: React, HTML5, CSS3, Tailwind CSS, Bootstrap, JSX/TSX, Jetpack Compose

Backend: Node.js, Express.js, Django, Flask, REST APIs

Databases: MongoDB, MySQL, MSSQL, Oracle SQL, Room (Android)

AI / ML: Scikit-learn, Pandas, Random Forest

Tools: Git, GitHub, VS Code, Android Studio

Concepts: OOP, MVVM, Clean Architecture, JWT Auth, Normalization, Agile
